# About Me

With three years of experience as a full-stack software engineer, I've gained valuable experience in both backend and frontend development. I love being part of dynamic teams where collaboration is key, and I'm always eager to learn from others.

Staying updated with new technologies keeps me on my toes, and I'm grateful for every opportunity to contribute my skills to meaningful projects. I'm just a small piece of the puzzle, but I'm dedicated to doing my part and making a positive impact wherever I go.

# Working Experience

**2022 Jul – Present**

**Software Engineer** — Bridgestone Mobility Solutions

During my time, I analyzed requirements and designed solutions to meet specific needs, developed new features for both backend and frontend components, ensured the ongoing maintenance of deployed software, and mentored new team members to foster skill development and team collaboration.

**2021 Dec – 2022 June**

**Software Engeneer Intern** — Webfleet Solutions

During my software engineering internship, I contributed to designing and developing software solutions, testing for bugs, and collaborating with the team. Additionally, I assisted in achieving project goals and participated in code reviews to improve code quality.

# Education

## Studies

**2018 – 2023**

**Computer Engineering Degree** — Universitat de Barcelona

University degree studies in computer engineering.

## Certificates

**2024**

**Patrones de diseño de software y principios SOLID** — Udemy

Software design patterns and SOLID principles course certificate (UC-d4a748af-1853-4d1c-9b43-f0b57729c3e0)
